## Think Of the Future

A condition of prosperity prevails throughout Canada from coast to coast. It is not confined to any one section nor to any one industry or group of industries. There is, in fact, a general prosperity to the extent of the Dominion. This is not to say that everybody or every industry is equally prosperous, or, indeed, that there are not those who do not enjoy prosperity. The contrary is true. But taking Canada as a whole, and in the major activities of its people, prosperity reigns today.

Such a condition is, of course, gratifying. Nobody would have it otherwise, and all desire that it shall be long continued. But there are dangers to be avoided in times of more or less universal prosperity which do not present themselves when times are hard and business depression rather than business activity is in evidence. It is an old and often proved statement that many people who can and have stood strong and true through the strain and stress of adversity, and won through to ultimate victory, have cracked and broken when favored with prosperity and success.

Canada is prosperous today, and it should take full advantage of its present favorable position. The people are optimistic and should continue so. They should continue to show vision, courage, and engage in constructive development. They would be unworthy of their heritage and the future possibilities of their Dominion if they acted otherwise. But they should nevertheless have a care in the enthusiasm of the glowing present not to forget the years to come.

Just as night follows day, winter follows summer, youth grows into old age, and death is the ultimate ending of birth, so is it inevitable that, in course of time, depression in business will follow buoyancy. A pendulum swings just as far one way as it does the other. It is a wise man and a wise community, therefore, which when times are good and development is the order of the day, takes thought of, and prepares for that future day when retrenchment may become a necessity.

If growth and expansion is artificially pushed too far; if an individual or a community becomes committed to large future obligations in order to further speed up present development, they may find themselves in great future difficulty.

All countries, all communities, most individuals, have passed through such bitter experiences. Western Canada has not been immune from them, and those who recall the "boom" days of the past know that the period of adjustment following the collapse of a "boom" was much longer than the "boom" itself, and that in the final analysis the losses far out-weighted the gains.

At the present time all our Western cities, towns, villages and rural municipalities are planning their programmes for 1929. Times are prosperous, the country is growing, and the almost universal demand is for increased expenditures to provide this and that. Today it is possible and comparatively easy to borrow the money to carry such enterprises through and to meet the initial interest charges. But a debt is created which will remain for years to come. When the present buoyancy subsides, when money is less easy to obtain, when depression and some degree of unemployment replaces present favorable conditions in business, will the load be too heavy to carry?

It will be unless care is exercised by all civic and municipal authorities in seeing that the safety line in expansion is not passed, and that expenditures now made are for permanent constructive work which will be revenue producing in the years to come. Extravagance in ideas is no more justified in times of prosperity than they are at other times. It is in those "other times" that the bills really have to be paid.

Developmental works are necessary and are justified in times of prosperity, when they would be suicidal, in fact quite impossible, in times of depression. When depression prevails it is frequently impossible to provide for even imperative and wholly justifiable expenditures. These must be provided when times are prosperous. It then becomes an equally imperative duty to provide them.

But non-essentials, no matter how desirable they may be in other respects, should be carefully considered less citizens, the taxpayers, are unthinkingly swept into the authorization of expenditures which later on they may have cause to bitterly regret.

Such words of warning are unnecessary in times of depression; it is now, when prosperity is with us, that warnings are necessary and should be heeded.

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of that headache or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart. All druggists, with proven directions for various uses which many people have found invaluable in the relief of pains and aches of many kinds.

W. N. U. 1751

## Prince Has Turned Author

Writes Foreword To Final Volume Of Merchant Navy

The Prince of Wales has turned author, or at least has written a foreword to the third and final volume of the Merchant Navy by Sir Archibald S. Hurd. The foreword was written in his capacity as Master of the Merchant Navy and fishing fleet, conferred upon him by the King last year.

Paying warm tribute to the British mercantile marine, the Prince refers to the thrill that he has always experienced in his world-wide travels at the sight of the red ensign. He refers to the work of the merchant marine in the world war as having provided the final test of a heroism unparalleled in history.

## A SPRING TONIC AN AID TO HEALTH

You Can Lay the Foundation Of Good Health Now By Building Up Your Blood and Strengthening Your Nerves Through the Use Of Dr. Williams' Pink Pills.

The good old fashion of taking a tonic in the Springtime, like most of the customs of our grandparents, is based upon sound common sense and good medical practice. Winter is always a trying time for those who are not in rugged health. Many men, women and children go through the winter on reserve strength they have stored up during the sunny summer months, and grow increasingly pale and languid as the spring days approach. A tonic for the blood and nerves at this time will do much for such people, by putting color in the cheeks and banishing that tired feeling that worries thousands of people at this season of the year.

It is impossible to be energetic if your blood is thin and weak, or if your nerves are frayed or shattered. You cannot compete with others if you do not get refreshing sleep at night, or if your appetite is poor or you are losing weight. You need a tonic at this time to add to your efficiency now, as well as to save you from suffering later on. And in all the realm of medicine there is no safer or better tonic than Dr. Williams' Pink Pills. These pills tone and enrich the blood which circulates through every portion of the body, strengthening faded nerves and run-down organs, and bringing a feeling of new strength and energy to weak, easily tired, despondent men, women and children.

Mrs. L. Hupman, Summerville Centre, N.S., writes: "Dr. Williams' Pink Pills have been of the greatest benefit to me. A few years ago I was in a badly run down condition. I became so weak and nervous that I could scarcely go about, and doing my housework left me completely used up. Everything seemed to worry me, and I was in a very discouraged condition, when I began taking Dr. Williams' Pink Pills. I soon found the pills helping me, and continuing their use I fully regained my health. Since then I always take a few boxes in the Spring to build me up for the hot weather, and always I find the best results. I therefore cheerfully recommend these pills as the best of health builders."

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## The Newest Invention

Wrist Watch When Worn Three Hours Winds Itself

A self-winding watch has been invented by a Lancashire artisan. Finding that seventy-five per cent. of watch troubles were caused by dirt or moisture entering through the aperture of the winder, he set out to make a watch which would be completely enclosed. In two and a half years, working in his spare time, he succeeded. The new wrist watch winds itself. To keep it going all the owner has to do is to wear it for three hours a day. It can not be overwound.

Lots of people make trouble and then don't know what to do with it.

-they call him  
"The man you can't rattle"

Many successful business men regularly use Wrigley's. The act of chewing has a soothing effect. The healthful cleansing action of Wrigley's refreshes the mouth—gently stimulates the flow of the natural juices—steadies the nerves—helps digestion.

## Farmers Show Interest In Valuable New Book

"Field and Farmyard" Being Distributed Free To Farmers

The new book "Field and Farmyard," which is being offered free to farmers by Imperial Oil Limited, has aroused a great deal of interest among farmers, and is creating for itself a great deal of favorable comment.

The book deals with practical farming problems covering different phases of cropping and cultivating, as well as livestock breeding, and has been judged by all classes of farmers in all sections of the country as a most authoritative work. In publishing the book, Imperial Oil Limited secured the services of a large number of outstanding authorities, and were fortunate enough to have these men, whose names are by-words in Canadian Agriculture, cover individually the subjects on which they are admittedly experts.

Dr. C. E. Saunders, producer of Marquis Wheat, is one of the noted authorities whose views on grain farming are incorporated in "Field and Farmyard." Other men whose reputations are familiar to most Canadian farmers, and who are contributors to the book are: W. L. Carlyle, manager of the E. P. Ranch, Alberta; Robt. M. Holtby, Ontario Fieldman for the Canadian Holstein Breeding Association; Col. Bartley Bull, Hn. President of the Canadian Jersey Cattle Club; W. A. Dryden, chairman of National Livestock Records Board; Col. Robert McEwen, President of the Canadian Co-Operative Wool Growers' Association; Thomas McMillan, M.P., one of Ontario's most famous farmers; Geo. B. Rothwell, Dominion Animal Husbandman of Experimental Farms; Dr. Robt. E. Jenkins, Manager of the Donalds Farms, Ontario; Hon. J. D. McGregor, Lieut.-Governor for Manitoba and well-known Western farmer, and many others.

The general information contained in the book has been compiled and written by the Hon. Duncan Marshall, formerly Minister of Agriculture for the Province of Alberta. The book has been endorsed and recommended to farmers by Hon. W. R. Netherwell, Federal Minister of Agriculture, and Hon. John Martin, Minister of Agriculture for Ontario. Distribution of the book is now being carried out, and a large demand for copies indicates that in providing at no charge, a tremendous amount of valuable farming suggestions and information contained in it, Imperial Oil Limited has instituted a service quite unique in the industrial history of Canada.

As a verminicide an effective preparation is Mother Graves' Worm Exterminator and it can be given to the most delicate child without fear of injury to the constitution.

## Primitive Lights

Before the coming of the oil lamp lighthouses were lit by candles or coal fires. The last of the latter was the lighthouse at St. Bees, where a coal light burned until 1822.

## Keep Your Health

TO-NIGHT TRY

## Minard's Liniment

for that cold and tired feeling.

Get Well—Keep Well.

## KILL FLU

by using the OLD RELIABLE!  
Minard's Liniment Co., Ltd., Yarmouth, N.S.

A new German cruiser to be constructed at Kiel, is to be electrically welded, no rivets being used in any part of the ship.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectively that they pass from the body unperceived. They thoroughly cleanse the stomach and bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests.

"I wonder why they say 'Amen' and not 'Women' Bobby?"  
"Because they sing hymns and not hers, stupid."

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

Gillett: "Did you ever kiss a girl when she wasn't looking?"

Terry: "Not when she wasn't good-looking."

Use Minard's Liniment for the Flu.

## A "Tramp" Of the Skyways

New British Plane Built To Carry Bulkiest Articles

The bulkiest articles can be transported across the world at a speed of 100 miles an hour in a new British aeroplane which has recently passed the fullest flying tests.

Its spacious cabin looks like a railway baggage van, for the machine has been built as a "tramp" of the skyways. It is known as the Vickers Bellere, and can be used as a freight-carrier, for the transport of troops or as a long-distance bomber.

The two Napier Lion engines have 1,000 horse-power, and with extra tanks to carry additional petrol the machine could remain in the air for between seventy and eighty hours.

Electricity supplies the lighting of this aerial pantechicon. The sides and roof are reinforced with wooden stays, and the floor, built up of wood in the manner of the Underground railway carriage, is similarly strengthened.

The Oil Of Power. — It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

## Expenditures On Canadian Roads

In 1927 federal, provincial and municipal expenditures on the improvement and maintenance of Canadian roads amounted to \$45,750,000.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has to its credit thousands of cases which other preparations had failed to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

Prof.: "Can you give me an example of a paradox?"

Plebe: "A man walking a mile but only moving two feet."

## Simple Precautions Against FLU

### Sore Throat —

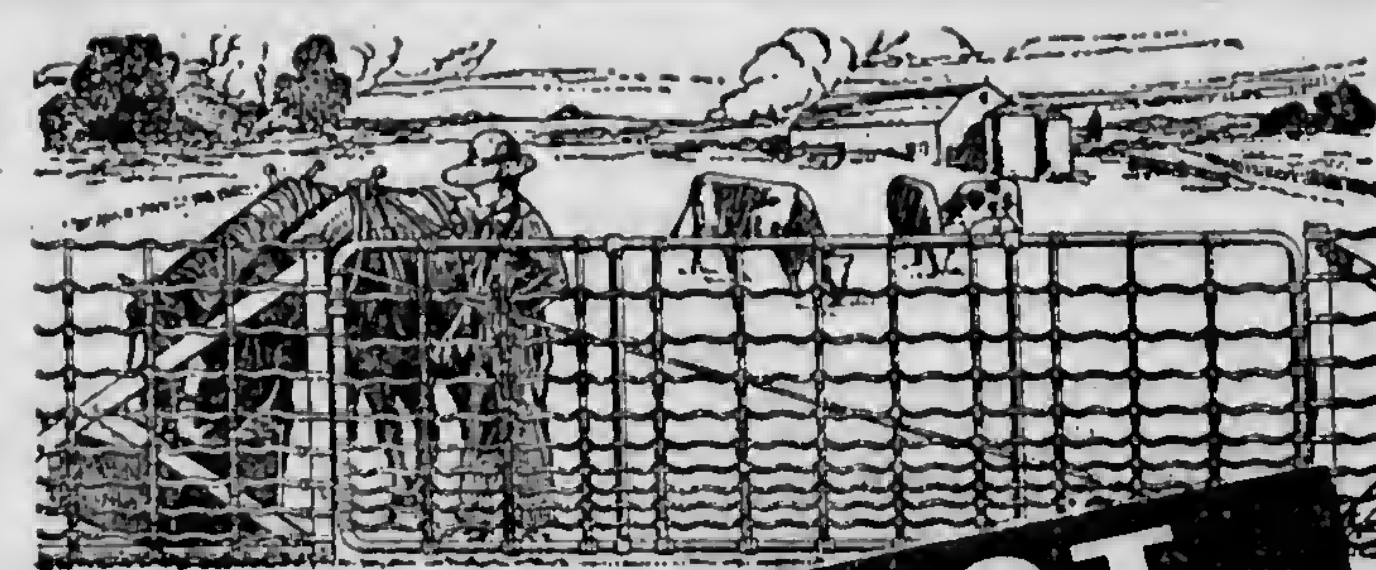

### — The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease—breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

You Actually save money on HEAVIER, STRONGER GATE.

**HOT GALVANIZED**

## Amazing Gate Value!

As long as you live your Frost Gate will positively defy strain and rust. The entire surface of the frame, the welded joints and fittings are HOT GALVANIZED by our own method used only in the Frost Factory. The fabric has the famous Frost Tight Lock. Heavier, stronger hinge bolts, clips and other super strength features. This sturdier, heavier gate costs less per pound of its weight. Investigate this astonishing value made possible by Frost methods and tremendous demand.

If there is no Frost dealer in your neighborhood, write to our nearest office.

## Rescue Came For Australian Flyers In the Nick of Time

Sydney, N.S.W. The crew of the aeroplane Southern Cross lived for two weeks on wild beans and mud snails and were extremely haggard and weak when found by a Heath Airways plane. It was revealed when the rescuers reached Derby.

The returning aviators said they learned from Captain Charles Kingsford Smith, who with Charles P. Uihli and two others came to grief on March 31, when they were forced to land in the mud flat regions of Port George while on an easy stage flight to England, that the men soon became too exhausted from exposure to make their way to the coast and probably would have perished had their rescue been delayed much longer.

The meeting between the stranded flyers and the pilot of the rescue plane was described as highly emotional.

Captain Kingsford-Smith told him that he and his companions had sighted several planes passing overhead, but could not attract attention to their position with signals or other means. When the first plane was sighted it bolstered their lagging spirits sky-high, the captain narrated, because they knew then that the search was on and believed sooner or later they would be able to attract attention to themselves.

A Heath plane will return to the stranded aviators within a day or two and will take a supply of fuel for the Southern Cross which Kingsford-Smith hopes to fly back to Sydney for re-conditioning preparatory to another start on the flight to England.

### Aviator Performs

#### Dangerous Stunt

Makes First "Outside" Loop Ever Negotiated in Commercial Plane  
Minneapolis, Minn. (U.P.)—W. (Speed) Holman, holder of the world's record of 1,433 consecutive loops, claims the distinction of having made the first "outside" loop ever negotiated in a commercial plane.

Holman performed the feat at an altitude of 4,000 feet over the city of Minneapolis. He was flying a biplane which he won the New York World Air Race in 1927. The outside loop, regarded by aviators as one of the most dangerous stunts in flying, had never been completed before, except in military planes.

### Charged With Sending Bomb

Police "Think" Negro Porter Was Looking For Promotion

New York. A negro post office porter who "discovered" a bomb addressed to Governor Franklin D. Roosevelt was arrested as the man who mailed the package.

The porter, Thomas J. Colley, denied the charge, but postal inspectors and police said they were convinced he sent the bomb in the hope of winning promotion by "discovering" it.

## Two Defences For Sinking of "I'm Alone" By Coastguard Vessels

Washington. Two defences for sinking by coast guard vessels of the rum runner "I'm Alone" are set up in a lengthy note prepared by state department officials in answer to the protest of the Canadian Government.

The draft of the note waits only approval of Secretary of State Stimson. It is understood that Mr. Stimson has examined the draft, but whether he made any changes is not known. The note is expected to go forward soon.

The note supports the coast guard action in sinking of the "I'm Alone" in the Gulf of Mexico, with an exhaustive review of previous rum treaty ship seizures.

If contents in the first place, it is understood that three Canadian ships seized in recent years, the Vines, Gold Harbor and Pescuwha, were seized within the treaty limit, and were captured on the high seas. These seizures were approved by United States courts.

### Newspaper Bill Discussed

#### Senate Decides To Postpone Action For the Present

Ottawa.—The bill to amend the post office act with respect to newspaper ownership introduced into the House of Commons by T. L. Church, Conservative, Toronto Northwest, was considered in the senate private bills committee, but definite action was postponed. The bill would provide that the names of the editor, managing editor, publisher, business managers, and owners of every newspaper, magazine, periodical or other publication be filed with the postmaster-general and postmasters. It would also provide that the names of shareholders be filed, in cases where the publication is owned by a corporation. The names of the bondholders, or other security holders, would also be filed. The bill would also deny use of the mails for failure of any publication to comply.

Another clause in the bill would provide that if a publication carried editorial or other reading matter which was paid for, it should be marked "advertisement." Mr. Church appeared before the committee and urged the passage of the bill.

Senator R. S. White opposed the bill. He explained to the committee that personally he had no objection as far as the Montreal Gazette was concerned, which was a privately owned institution, but he did not think it would be fair to newspapers in general. Most of the information was already supplied, government departments by the various newspapers. He thought the papers would be held up for blackmail if through accident they failed to put the word "advertisement" on some reading matter that had been paid for.

### Will Join Los Angeles To London Flight

Australian Aviator Plans To Accompany Captain William Lancaster

Redbank, N.J. Mrs. Keith Miller, Australian aviator, who flew with Captain William Lancaster from London to Australia, has said she would be second pilot and radio operator on a proposed flight from Los Angeles to New York, London and return.

Captain Lancaster will be pilot on the projected flight and Captain Harry Lyons will be navigator. Mrs. Miller said that she hopes to take off from Los Angeles in June. They plan to reach New York in one hop and fly between the east and west coast on their return without stopping. They will use a tri-motored all-metal closed plane.

### Trip Took Nineteen Days

Brampton, Ont.—Charles V. Hodgson, and J. H. Smithurst, both of Victoria, B.C., arrived here April 10, after completing the 5,000-mile journey from the western city on a one-cylinder motorcycle. The two youths took 19 days to make the trip. Hodgson formerly lived at Brampton.

### Must Comply With Law

#### Canadians Have To Pay Head Tax To Enter States

Washington.—The recent ruling of the Supreme Court withholding border-crossing privileges from foreign-born citizens of Canada is construed by immigration service officials to have also a considerable effect on native-born Canadians.

R. C. White, first assistant secretary of labor, said that while the court's ruling confirmed the admitted right of native-born Canadians to cross the international border at will, in so doing they would have to establish the status of immigrants under United States law.

The chief effect of that will be to require a Canadian to pay the \$8.00 head tax as an immigrant and the \$10,000 consular visa fee," Mr. White explained. "The difficulties have been occasioned by the practice of Canadians resident along the border in obtaining employment in the United States and going to and from their foreign homes to work and back daily. The native Canadian is obliged to continue such employment in the United States will have to pay the fees and undergo medical examination, but once that is done he will have a practically unlimited right to border-crossing."

### Tornado In Arkansas

#### Death and Destruction Follow In Wake Of Storm

Little Rock, Ark.—A tornado from out of the southwest swept through North Central Arkansas leaving a death toll of at least 20 persons, with indications it might mount considerably. A large number are injured and property damage is heavy.

The storm apparently wrought greatest havoc near Swifton, north of Newport, where sixteen bodies had been recovered. Alica, a few miles north of Swifton, also was reported to have had several deaths, but telephone and telegraph lines were down, and the reports could not be verified.

At Swifton, the rapidly with which the death toll was increasing caused predictions that it would reach 40 or 50 when all communities in that section had been heard from.

### Leaves Estate To

#### Medical Sergeant

Army Doctor Remembers Man He Met During War  
Toronto.—A friendship established during the war between a medical sergeant and his superior officer, the "M.O." is recalled through the probate of the will of Dr. W. H. Scott, of Carleton Place, Ont.

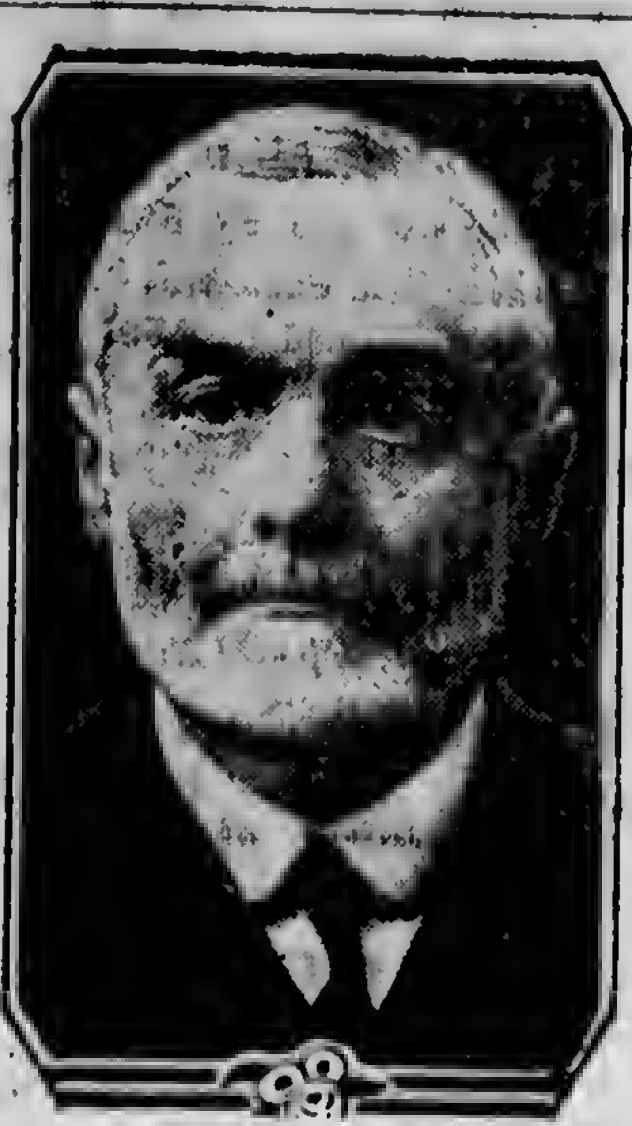

The will provides that Dr. W. H. Scott, D.C., M.M., and M.D., Legion of Honor, and former medical sergeant of the First Battalion, receive \$5,000 and a section of land at Carleton Place.

Houghton met Dr. Scott during the war when the former was confined to hospital with wounds. He saw nothing more of the doctor until 1920, when they met in Galt, Ont.

### Former Doorn Official Arrested

Berlin. Police admitted that they had arrested Karl Hartung, recently secretary to the former Kaiser's wife, Hermine. The arrest had been kept secret. It was reported Hartung had threatened to make "revelations" about conditions at Doorn Castle in Holland.

### APPOINTED REAR-ADMIRAL

Admiral Sir Montague Browning, who has been appointed rear-admiral of the United Kingdom in succession to Sir Stanley Colville, Sir Montague Browning was with the grand fleet during most of the world war.

### More Settlers Going Into Peace River

#### Figures To Date Show Large Increase Over Last Year

Edmonton.—Nearly 1,000 settlers with a total capital estimated at approximately \$1,150,000, have gone into the Peace River country as new settlers to date this year, according to colonization officers here.

The real rush of settlers commences in April. Last April 1, 200 settlers went in. This April conservative estimates place the figure at 1,500, and the good start already made this month indicates that this estimate is likely to be exceeded.

The settlers are in the majority of cases Canadian and American of excellent type, probably 90 per cent. of them are seeking homesteads, which means that the great bulk of the settlement will be on new land.

Lands beyond railway extensions both north and south of the Peace are favored, the homesteads being about equally divided between Fairview, on the north side of the river, and Hythe, on the Grand Prairie extension, south of the river.

### Money For Immigration

#### Over Million Dollars Spent In British Isles In 1928

Ottawa. A total sum of \$1,016,202 was expended by the department of immigration in the British Isles in 1928. The sum expended by the same department on the continent of Europe alone last year, was \$75,796.67. The amount expended for obtaining immigrants in the United States was \$392,157. The aggregate amount spent by the immigration department from 1881 to 1928 was \$51,618,024.96.

The information was given in the House of Commons by Hon. Robert Burke, minister of immigration and colonization.

### Income Tax Collections

Ottawa. There was an increase of \$2,851,250 to the total income taxes collected in the year ending March 31 last, as compared with the year before, it was announced by Hon. W. D. Euler, minister of national revenue, in a statement issued. The total for the past year was \$59,422,207.

## Expected King George Will Soon Be Able To Resume State Duties

### Should Share Research Funds

#### Portion Should Go Toward Education Says Toronto School Board Member

Vancouver.—A portion of the funds available for research under the direction of the Dominion Government Research Commission should be set aside for investigation of educational methods, was the suggestion made by Mrs. H. Plampre, member of the Toronto school board, speaking at a luncheon tendered by the Vancouver school board to school officials now here as delegates to the National Council of Education.

Much is said regarding the development of natural resources and the "protection of" these, said Mrs. Plampre, said the training of the Canadian children was equally important.

### SUNDAY SCHOOL LESSON

APRIL 21

#### COMFORT FOR GOD'S PEOPLE

Golden Text: "As one whom his mother comforteth, so will I comfort you."—Isaiah 66:13.  
Lesson: Isaiah 40:1-11.  
Devotional Reading: Psalm 30:1-5.

#### Explanations and Comments

The People Of Judah Have Suffered Their Full Penalty, verses 1, 2. We pass today in thought from the time when Judah was enjoying great prosperity under good King Hezekiah (our last lesson), to the time when Jerusalem had fallen prey to the Babylonian power and had been laid waste, and the majority of her people carried away into exile in Babylonia.

Comfort ye, comfort ye my people, saith your God. How great was the people's need of comfort is shown in Isaiah 40:27, 49:14. Who the "ye" are, undoubtedly, the prophets, or the prophetically-minded among the people, certainly not the priests. "The prophets may be manifold, but the Holy who speaks through them speaks as already known and acknowledged. My people saith your God. By these impersonal voices a personal revelation is made."

Speak ye comfortably to Jerusalem. Speak comfort to the heart of Jerusalem, is Dr. McFadyen's translation. The prophets were to put hope into the heart of the exiles, to strengthen them by an assurance of speedy return to the home land, Jerusalem (then in ruins) to see a real representation of the people.

"The city had suffered in and with her exiled people, and their deliverance was hers," said W. Wadsworth. Tell her that her warfare is accomplished, her time of service, her exile, is over; that her iniquity, her guilt, is pardoned; that she has received due, the penalty (ample punishment) for her sins.

"The prophet's charge is laid upon all who would speak of Christ to men. Speak to the heart, not only to the head or the conscience, God bestows in the person of his ambassadors. The substance of the message may well find its way to the heart, for it is the assurance that the long, hard service of the term of exile is past, that the sin which brought it about is forgiven, and more wonderful and gracious still, that God's mercy reaches out to the sin which follow our faithlessness have more than expiated it."—Alexander MacLennan.

Thinks Pact Necessary  
Stuttgart, Germany. Count von Bernstorff, chairman of the German delegation to the League of Nations disarmament preparatory conference, on the eve of his departure for Geneva, expressed the opinion that the out-law war pact was necessary and should be followed by world disarmament and the adoption of a general pact for settling all disputes by legal means.

### Plans Second Atlantic Trip

#### Co-Pilot Of Bremen Will Attempt Flight In June

Rochester, N.Y. Colonel James A. Fitzmaurice, co-pilot of the Bremen, will make his second trans-Atlantic flight, in June, taking off at Berlin and landing in New York, he announced here.

"Provided all goes well, he plans to return to Europe in the next few weeks to prepare for his return by air. He plans to use a tri-motored all-metal Junkers plane. It will carry three pilots and a wireless operator." He did not announce who his co-pilots would be.

## The Budget Passes House of Commons By Substantial Majority

Ottawa. The budget passed the House of Commons by a majority of 24 votes.

The final division, which resulted in the casting of 107 votes for the budget and 83 against, followed closely along party lines. All the Liberals, Liberal-Progressives, the two Independents, A. W. Neill, of Comox-Alberni, and Henri Bourassa, of Labelle; H. B. Adshad, Labor member for East Calgary, and L. H. Bellif, U.F.A. member for Lethbridge, supported the government's motion.

In opposition were all the Conservatives, all members of the U.F.A. group with the exception of Mr. Bellif, all the Progressive members, and J. S. Woodsworth, Labor member for Winnipeg North Centre, A. A. Heaps, Labor member for Winnipeg North, was not in his seat when the final division took place.

The vote on the main budget motion climaxed the most colorful day which the House of Commons has seen so far this session. Two other divisions resulted in the defeat of the sub-amendment and amendment to the main motion, which had come from U.F.A. and Conservative ranks, respectively.

The U.F.A. sub-amendment, which in brief, asked the government to consider the British preference, was negated by the substantial majority of 136. Its support came only from members of the U.F.A. and Progressive groups and the two Labor members, Messrs. Woodsworth and Heaps. Against it were lined up Liberals, Liberal Progressives, Conservatives, the two Independents, Messrs. Neill and Bourassa, and H. B. Adshad, Labor member for East Calgary.

The majority against the Conservative amendments was 62. This amendment received its entire support from the Conservative party. All other members in the House were opposed. The Conservative amendment, which was moved by Hon. Hugh Guthrie, expressed regret that the budget made no provision for reasonably safeguarding and protecting the interests of those engaged in agricultural pursuits or in industrial employment in Canada.

### OUR OUTLOOK!

In presenting to the public this  
our first issue of the Recorder under  
new management, we desire to ex-  
press our appreciation to the read-  
ers of this sheet for their co-opera-  
tion in making it as "newsy" as it  
is. It is our hope that you will co-  
operate with us by phoning in local  
social happenings and all news items,  
and thereby assist us to make the  
paper interesting to all.

It will be our endeavor to give the  
public our very best service in mak-  
ing the local paper a medium of com-  
munity expression and a force to  
build up public sentiment to accom-  
plish the needs of our fair city in a  
civil way.

That we have a solid foundation  
laid for prosperity in the beet rais-  
ing, wheat and mixed farming,  
stock-raising and truck gardening  
industries, cannot be denied, and it is  
our hope that the citizens of the  
town and district will exert every  
possible effort to make the town  
grow and to grow with the town; that  
the name we have of "Raymond, the  
Sugar City of Southern Alberta,"  
may be well earned and may always  
be an attraction to the prospective  
home-maker.

We must dismiss the self-satisfied,  
composed attitude of "Let George do  
it," and realize that every civic prob-  
lem is an individual problem to the  
citizen, and remains so until solved.  
What we are today is the result of  
our attitude toward civic affairs in  
the past and present. What we will  
be ten years from now, will depend  
on the attitude we assume in the  
coming ten years regarding our town.  
If we grow, we must go together for  
every progressive measure.

Let us resolve to make this our  
motto, "If it's for Raymond, I am for  
it with all my support."

Miss Pauline Redd returned Satur-  
day evening from a two year's mission  
in the Mexican Mission.

## News Notes

The Tuesday evening meetings of  
the Priesthood M. I. A. organizations  
of the L. D. S. Church have been  
changed to Sunday evening through-  
out the Taylor Stake for the summer  
months. Members of Priesthood  
Quorums should keep this change in  
mind, as the Sunday evening meeting  
will be the regular quorum meeting  
where they will receive credit for  
attendance.

"Ted" Gourley was in Lethbridge  
last Saturday.

Pres. H. S. Allen was a passenger  
on Monday's train to Lethbridge.

W. D. Mendenhall and Lee Brew-  
erton were in Lethbridge on Mon-  
day.

Delbert Gourley was the guest of  
honor at a surprise party held at  
the Gourley home on Saturday even-  
ing. Games and dancing occupied the  
time of the evening and a most enjoy-  
able time is reported by those pres-  
ent.

W. Christensen and N. Jeffery  
were Lethbridge visitors on Tuesday.

Beet drilling is now in progress  
and has been since the beginning of  
the week. All of the company's  
hills are now being used.

The high winds which prevailed  
during the early part of the week were  
very cold and disagreeable for this  
season of the year.

Mr. MacDonald, of the Barber-  
Tills Co., Paper dealers, called at our  
office on Tuesday enroute to Cardston.

Gordon Brewerton and family of  
Cardston, visited here Sunday after-  
noon and night, returning home by  
way of Lethbridge and Macleod on  
Monday.

The frosts each night are delaying  
planting and seeding operations some-  
what. Where the land is slightly damp  
the frost hardens it until no work in the  
way of harrowing or disking is pos-  
sible until the middle of the fore-  
noon.

T. L. Halpin, Manager of the local  
branch of the the Canadian Bank of  
Commerce was in Lethbridge Satur-  
day afternoon.

### Local Happenings

Mrs. J. W. Evans was not well  
the first part of the week, but is re-  
ported as feeling better now.

Mrs. Margaret Graham arrived in  
Raymond Monday night, and will  
spend the summer with her son,  
Robert.

I. M. Coombs of Cardston was in  
town on Wednesday this week.

C. W. Card, a brother of S. B., and  
an old-time resident of Raymond, vis-  
ited here on Wednesday.

According to farmers in some por-  
tions of the district, the soil is in the  
very best of condition for seeding of  
beets, being just damp enough that  
the seed will sprout, and when the  
warm sunshine comes the beets will  
fairly jump out of the ground.

The section crews have been putt-  
ing a bunch of new ties on the road  
bed this week.

### N.L. MITCHELL'S FATHER DEAD

Word was received here Tuesday,  
April 15th, of the death of Alfred  
Mitchell, father N. L. Mitchell, who  
died at his home in Magna, Utah, at  
the age of about 60, death being due  
to poisoning from his work in the  
crushing department of the copper  
mill at Magna.

N. L. Mitchell left here on Wed-  
nesday's train for Utah to attend the  
funeral which will probably be held  
on Saturday, and while there will  
make a brief visit with relatives and  
old friends.

## Every British Dominion Has An Independent Function In The League of Nations Body

One fact which has been made clear by the recent session of the League of Nations at Geneva is that Canada and every British Dominion has a definite and independent function in that body. Despite the conditions under which this country entered the League and the World Court, there still remains in the minds of some European statesmen the erroneous idea that Great Britain is the spokesman for the whole Empire.

Several episodes during the last session brought this subject to the fore, and in such a way, as to make the position of the Dominions abundantly clear. One of these had reference to the World Court, when exception was taken by several European delegates to a British Dominion being separately represented even if the question dealt with was of paramount importance to that Dominion.

Such a contention is absolutely contrary to the whole basis of Dominion inclusion in the League and the World Court and the British delegate, Sir Cecil Hurst, replied very forcibly with the statement that even if an English Judge was on the court, the Dominions would have the right of representation should it be dealing with a question which directly affected their interests.

Neither Canada nor any of the self-governing Dominions have ever recognized the right of Motherland delegates to vote or speak for them, and the sooner this is clearly understood by all member states of the League, the sooner will progress be made in matters affecting our interests.

Canadians are heart and soul behind the general idea and ideals for the maintenance of world peace of the League, but they will never be satisfied to take any position of inferiority in its councils, or relegate their vital interests to any one but their national representatives.

### Prospects Brighten In Maritime Section

#### Betterment In The Economic Conditions Now Apparent

Since the first of the year, there has been an increase in car loadings for the Atlantic region of the Canadian National Railways of 3,100 cars over the same period last year. This forms a very good index as to the economic conditions of the Maritimes. Numerous large works have been undertaken including pulp and paper mills and additions to hydro-electric plants. The cold storage facilities at Halifax are rapidly nearing completion and they will bring Halifax in line with the most modern ports on the Atlantic seaboard. A cold and dry storage warehouse is also under construction at Moncton, and this should prove a very valuable addition to the facilities for the handling of products requiring this class of storage. Altogether the prospects look very bright for the continuance of the betterment in the economic condition of the Maritime provinces. Various mining developments are under way and there has been considerable increase in capital investments both for new buildings and for additions to existing plants.

#### Sure To Hear Of Them

Palpitatingly, the infatuated young man sought counsel at the bazaar of an ancient and prayed that the ancient tell him how he might learn of his fair lady's faults.

"Go forth among her women friends," spoke the venerable one, "and praise her in their hearing."

"Is he mean?"

"Mean! He's so mean that if he were a ghost he wouldn't give you a fright."

"Why is baby's bed so high?"  
"My husband and I sleep soundly and that is to hear him if he falls out in the night." Lustige Kohler, Zeitung, Cologne.

W. N. U. 1781

### Western Man Promoted

W. E. Watson, Well-Known Livestock Man, Appointed Manager Of Montreal Livestock Yards

W. E. Watson, one of the best known livestock men in western Canada, and for some years past a prominent official of the departments of colonization and agriculture of the Canadian National Railways, has been appointed to the management of the Montreal Livestock Yards, succeeding Mr. O. J. Tansey, who has resigned. The announcement was made by Major F. L. C. Bond, on behalf of the stockyards company, Mr. Watson having taken over his duties on April 1st.

Mr. Watson is a native of Grey County, Ont., but came west many years ago. He is a graduate of Manitoba Agricultural College, and for a number of years was attached to the Manitoba Department of Agriculture. Later he joined the Dominion Livestock Branch as swine grader for the provinces of Manitoba and Saskatchewan. In February, 1924, he joined the departments of colonization and agriculture of the National Railways, at Winnipeg, as assistant agricultural agent, and in 1925 was advanced to the position of agricultural agent. In 1926 he was appointed superintendent of colonization and agriculture for the National System for the district of Saskatchewan, and in 1927 was transferred to the Winnipeg offices of the departments as superintendent of farm employment, which position he occupied until going to Montreal.

### Approved Dairy Herd Sires

Reports Of Canadian Record Of Performance Guide To Securing Good Animals

Owners of dairy herds looking for sires bred from high producing stock would find great assistance in locating suitable animals in the reports of the "Canadian Record of Performance for Pure-Bred Dairy Cattle." This publication, issued each year by the Live Stock Branch of the Department of Agriculture, at Ottawa, gives the records of the hundreds of cows tested during the year that reach the standard for registration. The breeds thus tested include the Ayrshire, the Brown Swiss, the French-Canadian, the Guernsey, the Holstein-Friesian, the Jersey, the Red polled, and the Shorthorn. In all these breeds provision is made for the registration of bulls, which are admitted after having four progeny in the Record of Performance, each from a different dam. Report No. 20 of the "Canadian Record of Performance" contains the names and registered progeny of a large number of sires. By referring to the pages of this report one may discover that there are quite near their homes herds from which they may strengthen their milking herd or secure a sire of approved breeding.

### Our Potential Wealth

Canada Destined To Be The Richest Country In The World

In a recent article written for a Toronto financial paper, James E. Doyle, Professor of Agricultural Economics at Cornell University, states:

"Canada is a country of vast virgin resources. The United States is sometimes spoken of as the richest country in the world, due to the immense progress of both agriculture and industry in that country. The fact is, however, that Canada is a country of larger area, and of far greater wealth in natural resources per capita. With a balanced development of Canadian resources, coupled with an equally balanced growth of those two great arteries of economic life—transportation and banking—Canada is destined to be the wealthiest country in the world. Already her exports per capita have a value four times those of the United States."

#### Makes No Difference

The average time, the New York Telegram points out, taken by a fast railroad train to pass a grade crossing is seven seconds—whether there happens to be anything on the crossing or not.

"The secret of life is not to do what one likes, but to try to like what one has to do."

A League of Nations committee has set the cost of the World War at \$362,500,000,000.

## Spring Song

"Want a light that fellow gave!" And so on, into the night. This is one of several photographs published by the Tourist Department of the Canadian Pacific Railway to remind the unhappy angler that "Spring has come—and all the streams are o-open." Photographed near Lake Archambault, north of Montreal.

### Will Attract Hunters

Plenty Of Big Game To Be Found In Alaska

As a big game country, Alaska comes a close second to Africa, despite its lack of lion, elephant and rhino. Furthermore, it is likely to attract hunters longer than the latter terrain, for here is less annual "cleansing up" of a district.

What is even more important to the territory back of Anchorage and the Alaska railroad, are plenty of moose, caribou, mountain sheep and goat, and black and brown bear.

What is even more important to the ordinary hunter—it costs less to outfit for the Alaskan hinterland than to attempt Nairobi.

#### Building Two Ways

The statement made at the convention of contractors held in Hamilton that material used in construction was now almost entirely of Canadian origin and manufacture was something to enthrall over. We build two ways when we build that one way.

### A Hazardous Occupation

Natural Scientists Face Many Dangers In Tropical Jungles

Pursuit of moths and butterflies in the tropical jungles of Ecuador is a hazardous occupation, according to W. Judson Coxey, member of the Philadelphia Academy of Natural Sciences, who returned from a protracted expedition.

Coxey told of meeting bird-eating spiders the size of dinner plates and killing venomous reptiles in the haunts of rare and beautiful butterflies. One of the spiders encountered, Coxey said, he was forced to shoot with a revolver as it was about to spring at him.

Rattlesnakes which give no warning when attacking, were brought back by the scientist. They are known as "Eco" or "X" snakes because of their markings and have "rattles" which make no noise.

First Flapper—I say, your brother Dick can dance.

Second Flapper—I know. Oxford's been the making of that boy.

### Winnipeg Newspaper Union Fashion

No. 277—Chic One-Piece Dress. This style is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 3 1/2 yards of 40-inch material with 1/2 yard of 27-inch contrasting.

No. 784—Dance Set. This style is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 1 1/2 yards of 40-inch material with 1/2 yard of 36-inch material for bandeau.

No. 835—Simple But Smart. This style is designed in sizes 6, 8, 10 and 12 years. Size 8 requires 2 yards of 40-inch material with 1/2 yard of 18-inch contrasting and 3 yards of binding.

No. 263—Flare In New Outline. This style is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 2 1/2 yards of 40-inch material.

No. 256—Tailored Lines. This style is designed in sizes 16, 18 and 20 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 2 1/2

## Work of Preserving Law and Order is Large Assignment in Our Vast Northern Empire

### RECEIVES NEW APPOINTMENT

R. D. PURDY

The Alberta Wheat Pool announces the appointment of R. D. Purdy as manager of Alberta Pool Elevators Limited, to succeed C. M. Hall, retired. Mr. Purdy has been manager of Alberta Wheat Pool Organization since January, 1925, and this change makes him manager of the subsidiary organization known as the Pool Elevators, as well, Alberta Pool Elevators operate more than 310 country elevators in Alberta, as well as three terminals on the Pacific coast. Mr. Purdy came to the Wheat Pool from the Bank of Montreal, he having been assistant manager of the Edmonton branch. He was born in Brighton, Ontario, and came West in 1905. He served twenty years with the banking business before coming to the Pool.

### Manitoba To Have

#### Airplane Factory

Seven Acres Of Land In St. Boniface Sold For Site

An airplane manufacturing plant, heralded as the greatest industrial advancement in years, will be established in St. Boniface immediately. Announcement that the factory would be brought to St. Boniface was made by B. C. Mills, of Mills and Company, Winnipeg, following a special meeting of the Cathedral city council, when seven acres of land were sold for the site.

The plant, according to Mr. Mills, will be the Canadian branch of one of the largest aeroplane manufacturing concerns in the world, and it will be controlled entirely in Canada. The name of the parent company has not yet been divulged.

The seven-acre site of the new plant, which was sold with trackage, is known as the old Rat Portage Lumber Company's and old Arctic Ice Company's property, and is located between Tache Avenue and the Norwood Bridge.

### Canada's North Is

#### Real Beauty Land

Vivid Picture Of Charm Presented In R.C.M.P. Report

Canada's great Northland is pictured, not as a region of solitude and waste, but as a land of beauty and attractiveness, in the report of the Royal Canadian Mounted Police, tabled in the House of Commons. East of the Great Slave Lake the scenic beauty is inspiring, according to Inspector Gagnon, who, describing a lengthy patrol to Fort Reliance says:

"The Hornby and Inconnu channels are the most beautiful routes possible; at every moment there is something to captivate attention, either in the abrupt shores or cliffs, or their varied coloration, or the thousand and one islands one encounters. Both channels are lined with innumerable pleasant little harbors.

"The waters are very clear and cold, and full of delicious trout."

#### There's a Reason

The Egyptian government is planning a motor road over the route followed by the Israelites on their 40 years' journey to the Promised Land. But nothing is said as yet about drying up the Red Sea, says the Buffalo Courier-Express.

"What is it that lives in a barn, eats oats, walks on four legs, and can see as well from behind as from the front?"

"I'll bite. What is it?"

"A blind horse."

Powder in guns for 40 years was found in good condition by University of Nevada.

Some years ago when our neighbors to the south betrayed an inclination to challenge Canada's right to her unoccupied Arctic hinterland, with particular reference to Ellesmere Island, the advisability of taking more active steps to prevent future trouble became apparent. What invaluable and highly efficient work of the government, the Royal Canadian Mounted Police, offered a ready-to-hand solution of the problem and shortly afterwards the business of establishing more northerly outposts was undertaken seriously. It began in 1920 with the placing of a detachment at Port Burwell, near Cape Chidley, at the northeastern tip of the continental mainland, to assist the Customs Department to control the inward and outward bound Hudson's Bay trade. Since then police posts have been located on all the three great islands forming the western boundary of the line of winter west of Greenland. That line is comprised of Davis Strait, Baffin Bay, Smith Sound, Kane Basin and Kennedy Channel, hitherto together furnishing the avenue of approach to the North Pole.

On Baffin Island, the southernmost of these boundary islands, three detachments of police are stationed at Ponds Inlet, at the northern end; Pangnirtung, on Cumberland Gulf, and Lake Harbor, in the south, on Hudson Strait. On the central island, North Devon, is Dundas Harbor, and on Ellesmere Island, the northernmost, is a detachment at La Bache Peninsula, on Kane Basin, in latitude 79.04 degrees north. In addition, constables have been lent to the Royal Canadian Air Force for service at its bases on Hudson Strait, whence it kept ice conditions continuously under observation last winter. From these various Arctic stations the whole northeastern archipelago has been and still is being controlled and administered. The police patrols have not hesitated to make very long journeys. For example, in the early part of 1927 the non-commissioned officer in charge of Bache Peninsula detachment crossed Ellesmere Island to visit the cluster of islands to the west—Axel Heiberg and others—some undiscovered territory until a quarter of a century ago. This patrol lasted fifty-four days and covered about 1,200 miles.

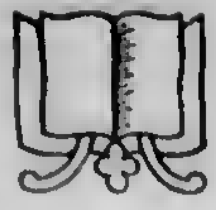

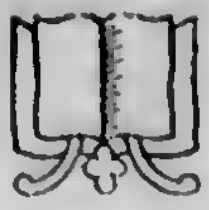

About the same time a non-commissioned officer in charge of the Pangnirtung detachment made a patrol of about the same distance, skirting the southeastern coast of Baffin Island and returning across the almost unknown interior. A constable, finding the body of a fur trader in his cabin on Baffin Island, hauled it out on his sled for 450 miles of difficult travel to Ponds Inlet for an inquest and Christian burial. The officers and non-commissioned officers in charge of mounted police detachments have commissions as customs collectors, postmasters, coroners, and magistrates. Bache Peninsula is believed to be the most northerly postoffice in the world. The Eskimos here have shown less disposition for violence than further west, but on one occasion, in 1920, a white man was killed by them near Cape Crawford, the northwestern tip of Baffin Island. The non-commissioned officer in charge at Ponds Inlet investigated, found the body, in his capacity as coroner held an inquest, arrested the accused, collected the witnesses and as magistrate committed the accused for trial. In 1923 a special court was sent from eastern Canada, which tried, convicted and sentenced those responsible for the homicide. There also have been cases of religious mania and homicidal insanity among these people. The relations between the police and the Eskimos are good.

When the Empress Dowager of China died, in 1908, her pearl necklace was buried with her. It contained nearly six thousand pearls and was valued at \$600,000.

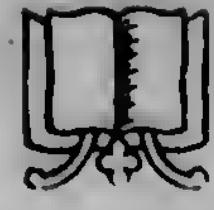

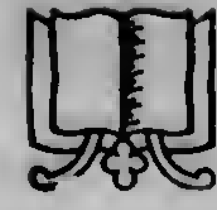

"Look here, this new cream has made my shoes look like new."  
"Um—er—suppose you swallowed some?" Pages Gales, Vvetdon.

# BEAUTIFY CANADA

## Clean Up, Paint Up, Keep It Up --- Increases the Value of Your Property

### THE DRIVE TO FINISH OLD MAN DIRT IS ON

Greatest Effort in History of Canadian Cleanliness  
Includes Hundreds of Communities

The greatest effort in the history of Canadian cleanliness is on! Cleanliness has a history. Its influence can be traced down the ages. Those races that were Clean were the races that were Masters.

The Athenians, with their baths and beautiful homes conquered the Persians, with their unkempt beards and dirty skins. The Romans, with their aqueducts, their barbers, their gardens beat back the barbarians with their goat skins and greasy fingers.

Louis the Fourteenth was the daintiest monarch France ever had and one of her mightiest. Filth kept the Panama Canal from being built years before it finally was. Bolshevism flourished when the dirty and the ignorant gained control in Russia—barbarians breed in filth and squalor.

Cleanliness has always been po-

tent. Modern sanitation saved millions of lives in the great war.

Real people, the wise, the leaders in progress, always have fought for cleanliness. At times it has been a sporadic fight, a skirmish. A clean man was handicapped by a neighbor who let his premises run wild. But co-operation has been brought to play at last.

This year, in Canada alone, hundreds of villages, towns and cities are campaigning for cleanliness, health, and beauty. They are not doing so for a day or a week but in a continuous campaign. There is a steady pressure.

Tin cans, flies, refuse, dirt, waste paper, unsightly buildings, unpainted surfaces are taboo. The drive is on. It won't be stopped.

Join the forward movement. Clean Up, Paint Up, and Keep It Up. Make the old enemies, Dirt and Disease and Unsightliness abdicate forever.

### The Use of Paint

Lessens Farmer's Cost Of Doing Business

The farmer, like the manufacturer, must employ the most efficient and economical methods of doing business if he is to prosper. When he keeps track of costs he finds that by building of better material, buying better implements, and then taking care of them, he increases his power of production and lessens the drain on his income.

Next to the purchase of good materials, the use of good paint is the farmer's best insurance. It protects his property and equipment against the rapid deterioration caused by wear and weather. The protection and appearance of barns, fences, windmills, wagons, tanks, etc., are just as important as the careful upkeep of factory tools and machinery, and depreciation here should be figured as carefully by the farmer as by the manufacturer.

A few cents invested in paint and a little work each season will soon show in the lengthened life of your equipment to say nothing of the satisfaction you will take in its improved appearance. Here is a list of paints that it will pay you to keep on hand:

Two-quart can of buggy paint in red and black, for painting up wagons and buggies.

A small can of aluminum paint, for interior iron work, such as stalls, stanchions, etc.

A small can of implement or spar varnish.

A half-gallon can of metal protective paint, for metal buildings. A good graphite paint is best for this purpose. Paint over regularly all such exposed metal parts as hoops, turpluckles, outside hinges, door-hangers, iron hitching posts, etc.

A gallon can of barn color or house color for general repair work.

It is well also to periodically treat the inside of staved silos with the special compounds prepared for that purpose.

The life of fence posts can be prolonged three times if the lower part is treated with the compound used on silo staves. This can be most easily done by taking a full barrel of the preservative, putting half in another empty barrel, taking the heads out of both barrels, and letting the fence posts stand in them over night. This treatment will make the poorest wood last longer than the best chestnut.

It has been proved that the painting of good galvanized wire fence doubles its life. In putting up a new

woven wire fence the painting can be done very easily by making a shallow trough that will take in the roll of wire fencing. Turning the roll around in the trough and pouring the paint over it at the same time will thoroughly cover every part. A good metal paint is best for this purpose.

A paint which makes concrete sufficiently non-absorbent to shed an ordinary rain greatly enhances the value of concrete buildings for cow stables, granaries, dairies, etc. The absorption of water through the walls has been the principal objection to such buildings in the past. Concrete paints come both in natural cement color and in several pleasing shades.

It is never advisable to try to paint an old shingle roof unless it has been previously painted, because the water gets under the shingles causing them to rot and curl up. It is always well, however, in putting on a new shingle roof to dip the bundles into a properly prepared shingle stain; this is especially true now—days as the quality of shingles is much poorer than formerly.

It is good policy not only to prevent deterioration with paint but also to forestall paint troubles. The commonest of all paint troubles is peeling, the chief cause of which is moisture, and moisture in turn is due to:

1. **Dampness In the Wood.** This means not only wood which is damp to sight and touch, but wood improperly seasoned, recently exposed to rain or fog or dew.

The pores in kiln-dried lumber are open and will soak up moisture; for this reason allow a new building to stand a month or two unpainted.

In short, if there is moisture in wood, heat will drive it either out or in. If heat on the inside of the house drives it outward the paint will peel.

2. **Dampness Back Of the Wood.** This is commonly due to green plaster. Too often in a hurry to complete a house the plasterers are put to work on the outside while the plasterers are finishing the inside. To complete the rush, about the time the paint is dry the furnace is started to dry the plaster. The moisture must find an outlet and is driven out through the exterior woodwork, carrying the coat of paint with it.

3. **Ochre Priming Coats.** Common ochre is the cheapest pigment, and when one remembers that the priming coat is the foundation on which the finishing coat depends, he does not have to be a paint manufacturer or dealer to appreciate how absurd is the statement so often made "Anything is good enough to prime with." Cheap ochre is nothing but clay stained, which makes a slippery, brittle paint.

4. **Old Paint Loosely Attached To the Wood and Not Thoroughly Cleaned Away:** If old paint is not firmly attached to the wood the contraction in the drying of the new paint will peel it off. Repaint before the old paint begins to let go. It's poor economy to delay repainting.

In case the under coat is brittle, scrape, sand-paper, and wire-brush all loose particles before repainting. If too far gone remove with a painter's torch. Always remember three thin coats of paint are better than two thick ones. The thick coats may

save a few dollars in the beginning but may cost more than double in the end.

5. **Fast Resinous Wood Not Properly Seasoned Or Prepared For Painting.** This is a recent trouble due to the scarcity of well-dried lumber. The chief trouble is with yellow pine, which is full of turpentine and resin. It is the resin that causes the trouble. It mixes with the paint and makes it brittle. The knots are the worst spots and should be coated with shellac before painting. Turpentine dissolves resin. This fact suggests much turpentine and little oil in the priming coat, and perhaps more turpentine than usual in the second coat, but, when every care is taken, paint will sometimes peel on yellow pine, where it is no fault of the painter or the paint. Liberal use of turpentine and vigorous use of the brush to work the paint into the wood are necessary to success on yellow pine.

6. **Boiled Oil.** Never use boiled oil in the priming coat; even when it is genuine boiled linseed oil; its preparation gives a glossy, varnish-like surface, and the priming coat should always be flat, or the succeeding coat will not adhere to it. Boiled oil should never be used for any coat in outside painting. Paint may fail from causes other than those named because of application on dirty or greasy surfaces; because of leaky roofs; because of the use of adulterated linseed oil and poor dryers; because the coats are too thick, or because the under-coats are not dry; but the majority of cases are covered by the causes specifically named in this article.

### BABIES GAIN BY THIS SIMPLE METHOD

Doctors say, souring waste in baby's digestive tract is usually back of any failure to gain weight according to schedule. And the best proof, this is true, is the quick way, weak, fretful, puny babies improve when you cleanse their stomach and bowels and put them in order with a few doses of purely-vegetable, pleasant-tasting Fletcher's Castoria. This gentle, harmless preparation is the doctor's first thought to relieve those ills of babies and children, such as colic, gas, constipation, diarrhea, colds, etc. Just be sure you get genuine Castoria in the bottle that bears the Fletcher's signature.

#### Home Decoration

Large patterned material should be chosen only for large rooms, and then sparingly, as one is apt to grow restless from seeing too much of it. This does not mean that large designs are bad, but that they require extreme care and skill in their selection, whereas a small pattern is usually safe.

We have observed that the value of anything depends a good deal on whether you are wanting to buy it or trying to sell it.

### Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Auburn, Ont., writes:—"Several years ago I was troubled with my heart and nerves, so bad, at times, my hands would become numb and cold. I took doctor's medicine for a while, but it did me little or no good. I happened to see

advertised and started taking them at once, and continued for some time, and since then I have had no return of my trouble." Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

### Rules For Fire Prevention

Do not permit rubbish, greasy rags, paper and useless waste to accumulate in or around buildings.

Do not allow matches kept in your homes, offices and stores in other than metal boxes. Use safety matches.

Do not allow children under ten years of age to use matches.

Do not use lamps and lamp burners that are not clean.

Do not tamper with or extend electric wire; employ an electrician.

Do not keep gasoline in other than air-tight cans painted red.

Do not fill tank of gasoline stove when lighted and fill by daylight only.

Do not permit a rubber tube connection to a gas stove.

Do not empty ashes in other than metal cans.

Do not carelessly throw cigar and cigarette stubs where they could cause a fire.

Do not fail to warn your children of the dangerous bonfires.

Loss through preventable fires in the United States is \$250,000,000 which, however, is exceeded by the annual loss through the lack of painting—according to Prof. H. H. King, who has conducted paint tests for several years for the people of Kansas, at the Kansas Agricultural College.

Clean-Up and Paint-Up campaigns reduce fire losses and insurance rates; increase property values; remove unsafe buildings; swat the fly; make school and home gardens; make cleaner alleys and yards; educate children in fire prevention and clean-up measures; plant trees; collect and utilize waste; make more attractive and safer homes and places of business, and develops a community spirit that permanently insures a cleaner, safer, healthier and more beautiful town.

### Don't Neglect Painting Up

Make the Paint Brush the Partner Of the Scrub Brush In Your Campaign Against Dirt

Paint-Up goes hand in hand with Clean-Up. When you have dusted and swept and mopped the corners and the open spaces, put the paint brush to work. It will be easy to keep things clean then. A painted surface does not accumulate dirt like an unpainted one does. Besides, dirt is more obvious on a painted surface, and less apt to be ignored. Paintliness is the best incentive to cleanliness—which you know is "next to godliness."

Make the paint brush the partner of the scrubbing brush. They make a whole team. Enlist both of them for Clean-Up and Paint-Up.

It doesn't need much argument to convince a man that his house and his barn and his whole farm will be worth more money if the buildings are kept in the best order.

### Don't Forget the Garden

You Can Make Enough Out Of the Back Yard To Paint Your House

Don't forget that garden this year. Gardens save thousands of dollars for householders, they conserve and add to the food supply and give many persons a healthy and inexpensive form of outdoor exercise.

Cultivating the back yard regularly will save enough money to save the house for years, by painting it regularly. The work is congenial and creates contentment—and "garden sass."

### Clean-Up and Paint-Up On the Farm

The man who owns a farm or lives on one should be just as much interested in Clean-Up and Paint-Up as the city householder. And the incentive to start such campaigns has been just as marked in the rural districts as in the more thickly populated ones.

Farmers everywhere are being urged to remove ramshackle buildings, repair and paint those that remain, trim hedges and trees, and clean and paint tools and machinery.

Hoisting of the National flag in Manchuria on December 31, placed the greater part of China under the Nationalist government.

Toothbrushes and handkerchiefs have figured among the tokens of valor presented by Chinese generals to the troops under their command.

### These All Count

Here are some pointers for citizens who would regenerate their community with a real Clean Up and Paint Up campaign:

1. Take away all the ashes and trash from your back yard immediately. Send your rubbish to the dumping ground.

2. Suggest to several men with teams, that they drive through the alleys with a sign, "Clean-Up Wagon" on their wagons; also a bell calling attention. People are only too glad to pay such a man for hauling their trash away.

3. Burn all rubbish that will burn. Clean your vacant lots and alley ways.

4. Make your street and parking look as trim and well kept as possible.

5. Refrain from throwing old paper, banana and orange skins into the streets.

6. Plant some grass and flower seeds to make your home beautiful.

7. If your store front is dingy, paint it. Nothing will do more to improve the appearance of a town than the liberal use of paint.

8. If there are unnecessary, unsightly sheds in your back yards, tear them down. They detract from the beauty of your home and the town. Open spaces and fresh air are better.

9. If your walk is an eyesore to those travelling over it, repair it or build a new one.

10. Trim hedges and trees and spray trees.

11. Paint and whitewash barns, poultry houses, outbuildings, etc.

12. Paint tools and machinery. The local "Clean Up and Paint Up" campaign offers the most direct and practical and permanent avenue through which women, organized or individual, can work for homes and home towns beautiful and sanitary.

### Keeps Floors Beautiful

Beautiful floors are largely a matter of prevention—the great secret is to put them in perfect condition—and then keep them that way. Doorways, passages and tracks become worn and unsightly first. You can keep these spots looking well by waxing them frequently. This requires but little time and effort if a good prepared wax and floor polishing brush are used.

### The Clean Town Is the Healthy Town

Germs Lurk In Filth and Clean-Up and Paint-Up Will Chase Them Away

It long has been a well known fact that dirt and disease walked hand in hand. Influenza, typhoid, pneumonia, tuberculosis, and other germ diseases exist because dirt exists. Get rid of dirt, and many diseases will be wiped out.

Cleanliness and the liberal use of the paint brush and mop and broom will make it hard for dirt to exist. If your town is spotless it will be a healthy town. And there is no better advertisement for a community than a low death rate.

Make your community clean and healthy. Wide-awake Canadian towns are conducting Clean-Up and Paint-Up campaigns, and Home and Community Beautiful campaigns as much for the sake of health as for the sake of beauty.

In Alameda, Cal., campaign workers went to the length of placarding houses with the inscriptions, "Clean," "Dirty" or "Filthy," as the case might be. It was heroic treatment but it proved effective.

Make your town a clean town and you will also make it a healthy one.

### For Health's Sake

Clean - Up and Paint-Up—Guard Against Epidemics By Removing Their Cause

Tuberculosis and other germ diseases are generally brought about by dirt and filth. The germs of tuberculosis cannot live where there is sunlight, cleanliness, and fresh air. The scrubbing brush, soap and water, paint and whitewash are deadly enemies of tuberculosis. The easiest way to get rid of the germs that have nested in your house and around your premises is: Clean-Up and Paint-Up.

The cleaning out of filth will keep down influenza, infantile paralysis, typhoid, and diphtheria, as well as tuberculosis. And the painting brush should follow the scrubbing brush so that the cleansed places may be kept clean.

Do you want a clean town? Then do your part. Go through your house from cellar to roof and gather up all the old, useless, worn-out things stored away and get rid of them now. Clean out all rubbish, ashes, etc., in the cellars, yards, alleys, and areaways.

Screen your homes thoroughly. Remove any animal or vegetable matter. Manure breeds flies, which carry disease to human beings, especially the babies. Clean out and fix up the manure bins. Repair your yard fences, poultry houses, out-houses, etc. Then paint or whitewash them. Don't spare the paint.

An ostrich's egg weighs three pounds.

## NICE WORDS WON'T DYE a dress or coat...

Neither pretty pictures nor colorful adjectives will dye a dress or coat. It takes real dyes to do the work; dyes made from true anilines.

Next time you have dyeing to do, try Diamond Dyes. See how easy it is to use them. Then compare the results. Your dealer will refund your money if you don't agree they are better dyes.

You get none of that re-dyed look from Diamond Dyes; no streaking or spotting. Just fresh, crisp, bright new color. And watch the way they keep their brilliance through wear and washing. They are better dyes because they contain plenty of real anilines—from three to five times more than other dyes. But you pay no more for them than for ordinary dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

### CHAPTER XVII.—Continued

Connie made no attempt to check her cayuse's onward flight. She was in no mood to listen to the ludes of the admiring crowd; she wanted only to get away from the scene as quickly as possible. The movement toward the centre gave her the opportunity she desired, and she urged the weary cayuse through an opening on her left. Many hands were reached up to congratulate her, but she pushed her way through to the trail.

At the sound of hoof-beats behind her she turned to see Lafonte urging his tired mount toward the Pemberton trail and looking back apprehensively over his shoulder.

Several men were running after him, shaking their fists and uttering loud imprecations. A man leaped from behind a jack-pine to land in the path of the half-breed, lunged for the reins, missed, then caught the stirrup. Lafonte struck the man a blow with his heavy whip that loosened his hold and felled him to the ground.

Connie saw Gillis break from the crowd, jump to the saddle of a cayuse and start after the fleeing man just as the latter disappeared in the

woods. Gillis waved his hand to her and vanished in pursuit. She urged Pegasus to the shelter of the timber as she saw her father and Donald running toward her.

The strenuous race and the spectacular fall had left both horse and rider in a badly shaken condition. Connie's body was bruised and sore, and her head ached horribly. The cayuse's strained muscles were stiffening, he was limping badly, and his head drooped wearily as he dragged his tired limbs up the steep trail.

At the barn door Connie dismounted stiffly, removed the horse's bridle, then threw her arms passionately around his neck and stroked his symmetrical head with soft caresses. "I'm so sorry, Peggy darling," she said in a choking voice.

The horse nipped her shoulder in a weak attempt at playfulness, as if to signify that he quite understood.

Connie's eyes brightened at a sudden thought. "Peggy, dear," she whispered softly as she nestled her cheek against his soft mane "do you know that I can have some nice clothes now? Lots and lots of nice things. I am going to buy you a blanket—a nice thick one for winter—and some ribbons for your mane. And you, Peggy—with a flood of tenderness in her voice—"you won all this for me."

She was crooning sweet nothings in his ear that only Pegasus could understand when her father appeared, breathless from running, his face grey and anxious.

"Are you all right, Constance darling?"

Connie stepped forward. She was pale and weak, but her colourless lips tried to form a smile. "Yes, Daddy dear—I'm all right." Her voice trailed to a whisper and the blue eyes closed as darkness fell upon her like a cloud. Swaying uncertainly for an instant, she fell like a broken flower into her father's outstretched arms. For the first time in her life Connie had fainted. She lay like a child in his trembling arms, her upturned face wearing the pallor of death.

With a prayer on his lips and an agony of fear in his heart, her father carried her to the cabin and tenderly stretched the bruised little body on the coarse blankets of her bunk.

### CHAPTER XVIII.

At the race-course the crowd eddied excitedly about the judges' stand, or stood in groups talking of the wonderful performance of the spotted cayuse that had made the erstwhile champion appear a mere tyro.

Gillis came riding slowly from the woods and was hailed by questioning shouts from a score of throats.

"Did you get him?"

A bloody handkerchief was wrapped around the big man's head, and a livid welt showed on his forehead. He smiled grimly as he dismounted, "I got the d——d skunk," he answered savagely.

He turned to a group of Indians. "You fellows'd better look out for him when you go along; his eyesight's kinda bad."

Donald came to the front of the judges' stand and held up his hand for silence. Gradually the hum of voices died away and the crowd turned to face him.

"As you know we are to take up a collection to add to the Company's purse. The gentleman below," pointing down at Andy, "will hold the hat. We have witnessed an exhibition of matchless skill and pluck. Give us your feel."

The crowd cheered lustily. Then, jostling each other good-naturedly like a lot of schoolboys, they formed in a long queue.

Andy started the contribution by giving his whole roll of bills. Money showered upon him until he was forced to call for another hat.

"Fightin' Jack came to Donald in great perturbation. 'Say! Our gang's all stony broke. Can we sign a due-hill?'"

Donald called the time-keeper.

"Make her out for twenty bucks for each of us," said "Fightin' Jack. Andy's spirits soared as the pile rose higher.

"God bless 'er little 'eart," he murmured, "she can 'ave an 'ole ship-load of them blinkin' camisole things."

An hour later, as Donald climbed the hill to deliver the prize, he met Doctor Paul.

"How is she, Doctor?"

"She's had a nasty shaking up, but there are no bones broken. She will have to remain in bed for a week or so."

Wainwright saw Donald coming and stepped outside the door to meet him. "She's sleeping," he said in a low tone. He looked questioning at Donald as the latter passed him the package of money.

"The prize money," Donald explained. Wainwright peeped at the contents and his face lit up with pleased astonishment. "I understood that the purse was to be a small one!"

When Donald told him of the collection Wainwright's face flushed hotly. "Is that the custom?" he questioned sharply.

Donald nodded. Wainwright paced nervously with hands clasped behind his back. "Pardon my abrupt manner," he said contritely, "I am a bit out of sorts today."

Every evening Donald called at the Wainwright home, bringing little delicacies carefully prepared by Andy. Once he spoke to Connie from outside the door, and her answering voice gave him an odd thrill. He pondered over this as he made his way down the hill. He was struck by a sudden thought. His face broke into a smile and he shrugged his shoulders. "Nonsense," he said aloud.

Janet remained several days after her friends had returned to the city. She tried in vain to restore the familiar relations which formerly existed between herself and Donald. His evening visits to the cabin on the mountain deprived her of his company, and she, half-jealously, reproved him for his inattention to her. With spirits depressed and a despondent look in her dark eyes, Janet returned to Vancouver.

One evening Wainwright gave Donald a letter to post, addressed to a big departmental store in Vancouver. A few days later there arrived numerous bundles and boxes, including a big trunk. Donald with the assistance of Gillis's crew carried them up the hill.

"I've brought your big trunk with the 'bulgy top,' Miss Wainwright," he called.

Connie sat up in her bunk so quickly that her head bumped the boards above. "Miss Wainwright," he had called her! Her eyes glowed in the dusky half-light. "Thank you so much," she replied.

The next day Wainwright informed Donald that Connie was up and would see him.

"Just a minute, Dad," she cried as she heard them approaching.

Feverishly she rushed to the small mirror to glance at her reflection. With nervous hands she fluffed the hair about her ears and smoothed imaginary wrinkles from the collar of her dress. Then she sat down gravely and arranged her skirts about her.

(To Be Continued.)

### Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death may result from paring corns with an infected razor. Quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. If afflicted with corns, callouses or sore foot-lumps, use "PUTNAM'S"—it's reliable, and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c. at all dealers.

### Australian Wine Firm

An old-established wine firm of Australia has incorporated under the British Columbia provincial statutes and proposes importing Australian wines in large quantities.

### KEEP YOUR BABY HAPPY AND WELL

Every mother wishes her child or children to be well and happy; to be bright-eyed, rosy-cheeked boys and girls. No mother, though, can expect her children to escape all the ills of babyhood and childhood, but she can do much to help them fight the battle for health.

All prudent mothers constantly keep at hand the means of aiding their little ones when sickness comes suddenly—as it generally does in the case of children. In every home where there are infants and young children Baby's Own Tablets should be found. Read what Mrs. Mary Hill, Centre Dummer, Ont., says concerning these Tablets:—"I am the mother of six children and would not be without Baby's Own Tablets. They are a wonderful medicine for little ones."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus break up colds and simple fever, banish constipation and indigestion and allay the irritation accompanying the cutting of teeth. They are absolutely safe and are pleasant to take. The Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Scotch mother complains that her daughters "have danced away from her." Having their Highland fling probably.

## Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes. Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

### Little Helps For This Week

"Which hope we have as an anchor of the soul, both sure and steadfast."—Hebrews vi. 19.

God liveth ever! Wherefore, Soul, despair thou never! What though thou tread with bleeding feet

A thorny path of grief and gloom, Thy God will choose the way most meet.

To lead thee heavenwards, lead thee home.

For this life's long night of sadness

He will give thee peace and gladness;

Soul, remember in thy pains, God o'er all for ever reigns.

—Zibn.

Who can really think and not think hopefully? You were in my mind last night, and you brought a little boat to sail me past despondency of life and fear of extinction. When we despair and discolored things, it is our senses in revolt, and they have made the sovereign brain their drudge. I heard you whisper, "There is nothing the body suffers that the soul may not profit by." With that I sail into the dark; it is my promise of the immortal,—teaches me to see immortality for us.

—George Meredith.

### Commissioner For Panama

A Canadian trade commissioner's office has been opened in Panama, and a trade commissioner will shortly be appointed. It is officially announced. At present most of the Central American Republics come under the commissioner's office in Mexico, while Venezuela and Colombia come under Cuba.

A magazine writer says a dog finds an empty place in man's life. This is especially true of the hot dog.

Miard's Liniment for the Grippe and Flu.

The Government of Alberta will spend \$1,500,000 on improving and constructing roads in the province this year.

You can tell a civilized country. It's one where people kill the birds and then spend millions to fight insects.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

Magistrate: Are you sure you understand the nature of an oath? Youth (sneered stiff): Sure. Ain't I your eaddy down at the links.

Miard's Liniment for Coughs and Colds.

He (earnestly):—"I mean to kiss you, and kiss you, and kiss you." She—"That would be only three times."

Miard's Liniment prevents Flu.

**Long Air Trip Planned**  
One of the longest air lines in the world is being contemplated between London and Cape Town. The route, more than 8,000 miles long, will branch off at Cairo, crossing over into India.

Vinegar used in place of water when mixing plaster of paris will keep the plaster softer for a longer time than water.

### CONSTIPATION RELIEVED QUICKLY

**CARTER'S LITTLE LIVER PILLS**  
This Purge Vegetable Pill will move the bowels without any pain and depressing after effects. Sick Headache, Indigestion, Biliousness, Bad Complexion quickly vanish. Children and Adults can easily swallow Dr. Carter's tiny, sugar coated pills. They are free from calomel and poisonous drugs. All Druggists 25c and 75c red pkgs.

**CARTER'S LITTLE LIVER PILLS**

## The Great Three-Fuel Hart-Parr 12-24

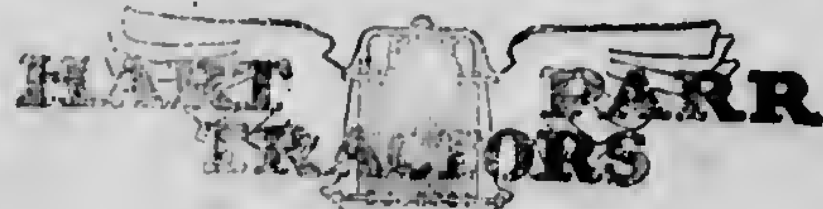

In official tests, conducted by nationally known engineers who used cheap distillate for fuel, the Hart-Parr 12-24 registered a drawbar pull of 2,950 pounds at 2.77 miles an hour and 2,192 pounds at 3½ miles an hour. On the belt it pulled 32 horsepower, which means at least a 24-inch separator. The Hart-Parr is a three-fuel tractor, burning gasoline, kerosene or distillate equally well. It is the one tractor that develops tremendous power from the cheapest, low-grade fuels. Hart-Parrs are made for small, medium and large farms and have three forward speeds to speed up hauling and field work. Ask for a demonstration.

## News Notes

### HUNGARIANS HAVE GOOD CHANCE FOR SUCCESS IN ALTA.

"There is no doubt about it, if they want to work, and if they are healthy, Hungarian settlers in the province are bound to make progress," Stephen J. Schefbeck, royal consul, of Winnipeg, said Saturday. He has made an inspection tour to settlers of that nationality in Southern Alberta, and reported that conditions were fair.

Hungarians had most chance of succeeding in the Raymond district, growing sugar beets, he believed. Beet raising was conducted extensively in their home land and they understand it fully.

The consul has been confined to his hotel room with the flu but expects to have recovered sufficiently by Saturday evening to continue his journey. He will next go to Vancouver to look into Hungarian colonization conditions there. On his return the settlement near Leduc will be visited. —Calgary Herald.

### KING KNIGHTS MAJ. SEAGRAVE

London April 12—Major H. O. D. Seagrave, who arrived at Southampton tonight from New York has been made a knight by King George it was announced officially.

Seagrave who set a new world's automobile speed record at Daytona Beach, said he would not race again unless his new record was broken by an American.

### WOMEN'S INSTITUTE NOTES

The regular meeting of the Women's Institute was held in the United Church on Thursday, April 11.

Mr. John Blackmore was the speaker of the evening, his subject being "The League of Nations." Mr. Blackmore treated this subject under the following headings: The Forming of the League, Why and How the League Functions, Its Objects and What It Has Done. This talk was very interesting and educational, and was thoroughly enjoyed by all present.

Following the talk Mrs. F. W. Leavitt gave as a retold story, the 1928 prize story from McLean's Magazine entitled "Foreground."

The ten year old daughter of Mrs. Larson living at Butte Farm was taken to the hospital at Lethbridge last Tuesday owing to complications from the mumps. The latest reports are that she is recovering and will be able to return within the next few days.

### BRIDAL SHOWER

A very enjoyable and most successful shower was held on Monday evening at the Evans home, in honor of Miss Ruth Holt, daughter of Mr. and Mrs. F. T. Holt, who was married on Wednesday in the Cardston Temple to Mr. Scott Salmon. The shower was sponsored by Miss Alice Evans and the business girls of Raymond, and about 90 friends of the bride were present to honor her. A large number of beautiful and useful gifts were received, with kitchen and silverware predominating. Miss Holt thanked her friends most graciously for their kindness. A number of interesting and entertaining games were played and a most delicious luncheon served.
